

California Department of Mental Health

Approver Designee Training for XML Counties

How to Use the
DMH Information Technology
Web Services (ITWS) to
Configure & Manage County User Access to the
Data Collection and Reporting (DCR) System

Presented by the DMH Performance Outcomes & Quality Improvement (POQI) Unit

Last modified: 01/14/2008

Training Overview

SECTION I: CONCEPTUALIZING THE GROUP AND ROLE STRUCTURE

- Context of the Approver Designees Responsibilities (slide #4)
- Groups (slide #8)
- Roles (slide #19)
- Partnership Service Coordinators (slide #24)
- Sharing Full Service Partnership (FSP) Records (slide #28)
- Review of Full Service Partners (FSP) Record Access (slide #30)
- Brief Introduction to the DCR (slide #32)

SECTION II: NAVIGATING THROUGH THE MHSA APPROVER MANAGEMENT INTERFACE WITHIN THE ITWS

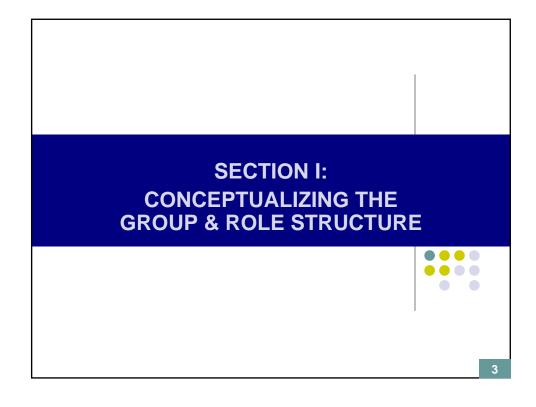

- Overview of the Approver Management Interface (slide #43)
- Creating Groups (slide #48)
- Managing Access to the ITWS / DCR (slide #54)

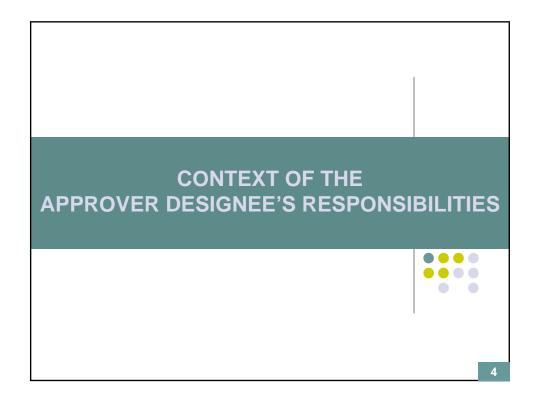

SECTION III: INFORMATION TECHNOLOGY WEB SERVICES (ITWS) ENROLLMENT PROCESS

- Approver Designee: Approver Designation & ITWS Enrollment Process (slide #75)
- Other ITWS User Enrollment (slide #109)

SECTION IV: COUNTY CERTIFICATION AND DMH STAFF CONTACT INFORMATION

- County Certification Process (slide #115)
- DMH Staff Contact Information (slide #119)

Reporting Full Service Partnership (FSP) Outcomes Assessment Data

- Counties have two options for reporting FSP Outcomes Assessments data to the DMH Data Collection and Reporting (DCR) Application:
 - Option 1: ("DCR Counties")
 Direct on-line data entry into the DCR
 - Option 2: ("XML Counties")
 Batch XML file submission upload to the DCR
- Both options require at least one county staff to have access to the DMH ITWS and the DCR Application

IMPORTANT NOTE: DCR Counties can only enter/update data online through the DCR. XML Counties can only enter/update data via XML to the DCR. If your county will be using a combination of these 2 methods, please contact POQI staff.

5

Approver Designee Responsibilities

Approver Designees are responsible for:

- Creating groups
- Approving enrollment requests from county users to access the ITWS and/or DCR Application
 - Assigning enrollees to groups
 - Assigning roles to enrollees
- Ensuring that the group and role structure accurately reflects the county's business process
- Removing access from users who no longer need ITWS MHSA System access
- Ensuring that users have your contact information.
- Serving as a front-line resource for local users who have questions dealing with: DCR questions/issues, ITWS enrollment, etc. (Approver Designees may contact POQI Staff if unable to answer a specific question.)

Approver Designee Responsibilities (cont.)

Authenticating Users:

- Before Approver Designee's can approve a user's request for access to the ITWS / DCR Application, Approver Designee's will need to indicate a method for verifying the request. Currently, the only options are "Contacted by person" or "Contacted by phone."
- In order to ensure that Approver Designees are enrolling the appropriate users into the ITWS and DCR, it is recommended that Approver Designees consult with Administrators to identify users and determine which group / role(s) they should be assigned.
- Business processes should be developed so that when users' groups / role(s) need to be modified or removed, Approver Designees can take the appropriate actions.

GROUPS	
	8

Groups

- Approver Designees are responsible for creating groups in the ITWS in order to structure access to the DCR Application
 - All users who access the DCR Application must be assigned to a group
 - All users assigned to a group can see the data of all other users within that group
 - Users can only be assigned to one group
 - Group names must be unique
 - A "<County> Master Group" has been automatically created in the ITWS for each county
 - Users assigned to the "<County> Master Group" can view ALL data for the entire county
 - Do NOT create any other groups with the word "Master"
 - Users are only able to download data for the group to which they are assigned

9

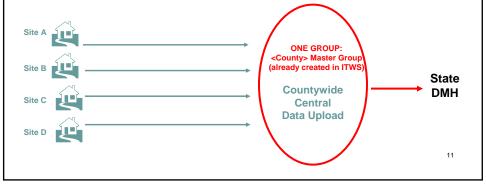

Groups (continued)

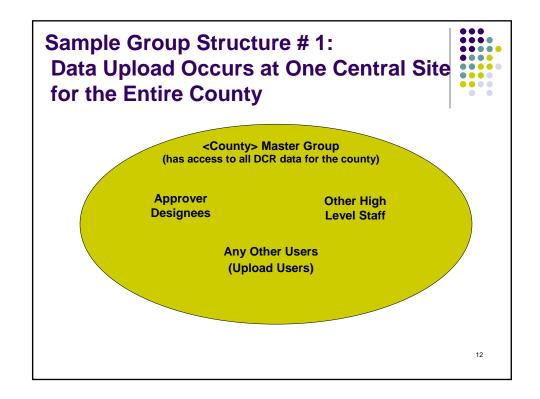

- After completing Approver Designee training, Approver Designees (and other relevant staff) will need to determine which group structure(s), presented in this training, most closely match their business needs
- Once this is determined, Approver Designees are required to contact POQI staff to schedule the "Approver Designee Group Structure Development" conference call
- For more information regarding the "Approver Designee Group Structure Development," visit the POQI website at http://www.dmh.ca.gov/POQI/trainingMHSA.asp

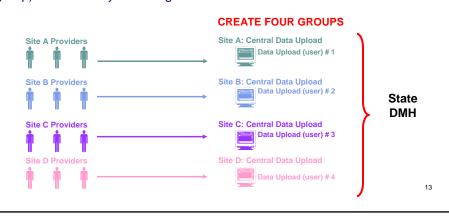

- Users upload FSP Outcomes Assessment data via XML into the DCR on behalf of the ENTIRE county (i.e., multiple providers from multiple locations).
- Users must be assigned to the "<County> Master Group" in order to access the FSP data for the entire county.
- Users must be assigned the role of XML Upload (XML-U).
- Any other user that is assigned to the "<County> Master Group" will also be able to access the FSP data for the entire county.

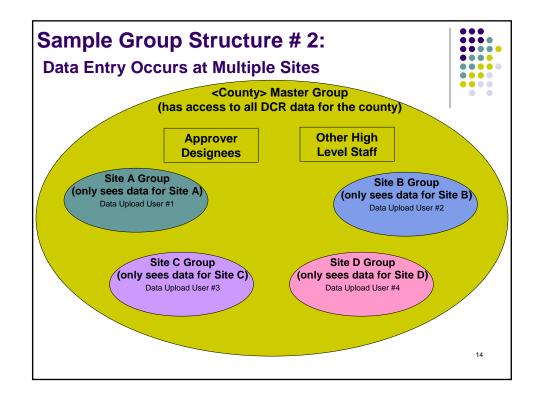

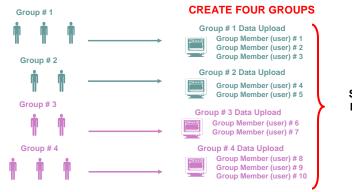

- Central data upload user(s) at multiple provider sites within the county upload FSP Outcomes Assessment data on-line into the DCR on behalf of multiple service providers.
- User(s) will only be able to access the FSP data for the provider site (i.e., group) to which they are assigned.

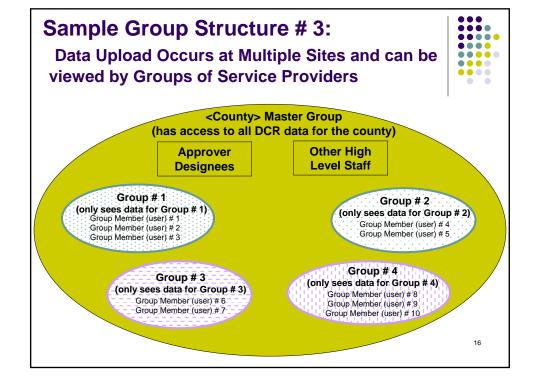

- Data Upload users upload FSP Outcomes Assessment data via XML into the DCR.
- Group members (e.g., providers, partnership service coordinators, etc.) will
 only be able to see FSP data for their group.

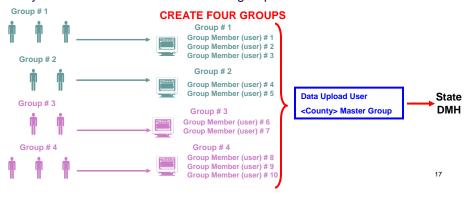

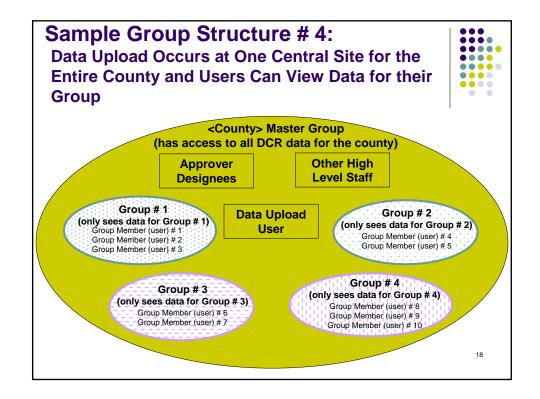

State DMH

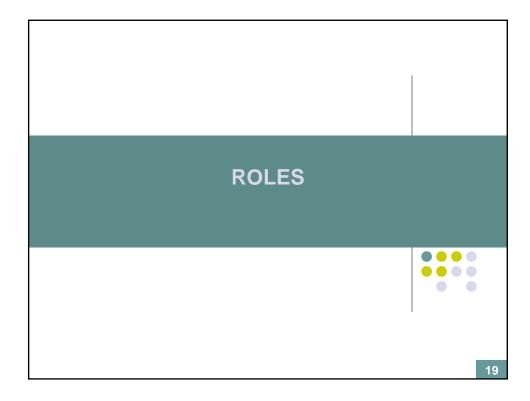

- Data Upload User(s) upload FSP Outcomes Assessment data via XML into the DCR on behalf of the ENTIRE county (i.e., multiple providers from multiple locations) and users can view data for their group.
- Data Upload User(s) must be assigned to the "<County> Master Group" in order to access the FSP data for the entire county.
- Group members (e.g., providers, partnership service coordinators, etc.) will
 only be able to see FSP data for their group.

Assigning Roles to Users

- Roles determine which screens users can see, as well as what users have the authority to do, within the DCR Application
 - All county staff who use the DCR Application must be assigned to at least one role
 - County staff may be assigned to multiple roles
 - Partnership Service Coordinators must be assigned to a Partnership Service Coordinator role (more information on this topic later)
 - Users are only able to upload data if they have been assigned a role of "XML Upload"
 - Users are only able to download data if they have been assigned a role of County Administrator-RW (and will only be able to access data for the group to which they are assigned)

Reminder: It is important to consider users' roles in relation to group structure(s) for your county. Once this information is determined, Approver Designees are required to contact POQI staff to schedule the "Approver Designee Group Structure Development" conference call

Assigning Roles to Users (continued)

Each role has the functionality of either:

Read Only (RO)

Users can VIEW data but can't make changes to the data.

Read/Write (RW)

Users can VIEW data AND can make changes to the data.

IMPORTANT NOTE: FSP data that are uploaded to the DCR via XML CANNOT be updated online. Users that wish to view this data through the DCR must be assigned Read Only roles.

21

Assigning Roles to Users (continued)

There are 5 types of roles available to users:

1. XML Upload (XML-U)

- 2. Partnership Service Coordinator (PSC) roles
 - Partnership Service Coordinator Read Only (PSC-RO)
 - Partnership Service Coordinator Read Write (PSC-RW)
- 3. County Administrator roles
 - County Administrator Read Only (CA-RO)
 - County Administrator Read Write (CA-RW)
- 4. Generic roles
 - Read Only (RO)
 - Read Write (RW)

It is recommended that Approver Designees assign themselves to this role.

5. Share FSP Group role

	Role								
DCR Screen	Partnership Service Coordinator -RO	Partnership Service Coordinator -RW	County Administrator -RO	County Administrator -RW	Read Only	Read/Write	Share FSP Group	XML Upload	
DCR Home Screen	Read Only	Read Only	Read Only	Read Only	Read Only	Read Only	n/a	n/a	
Add New Partner Screen	n/a	Read/Write	n/a	Read/Write	n/a	Read/Write	n/a	n/a	
Manage Active Partners Screen	Read Only	Read/Write	Read Only	Read/Write	Read Only	Read/Write	n/a	n/a	
Inactive Partners Screen	Read Only	Read/Write	Read Only	Read/Write	Read Only	Read/Write	n/a	n/a	
Upload FSP XML Files Screen	n/a	n/a	n/a	n/a	n/a	n/a	n/a	Read/Write	
Download FSP XML Files Screen*	n/a	n/a	n/a	Read/Write	n/a	n/a	n/a	n/a	
Print Forms Screen	Forwards Users to the POQI Web Page								
View/Share FSP Groups Screen	n/a	n/a	n/a	Read/Write	n/a	n/a	Read/Write	n/a	
Virtual PSCs Screen	n/a	n/a	Read Only	Read/Write	n/a	n/a	n/a	n/a	
System Messages Screen	n/a	n/a	Read Only	Read/Write	n/a	n/a	n/a	n/a	
Training Screen	Forwards Users to the POQI Web Page								
Contact Us Screen	Forwards Users to the POQI Web Page								

^{*}Must be assigned "County Administrator-RW" role.

NOTE: In order to ensure that Approver Designees are enrolling the appropriate users into the ITWS and DCR, it is recommended that Approver Designees consult with Administrators to identify users and determine which group / role(s) they should be assigned.

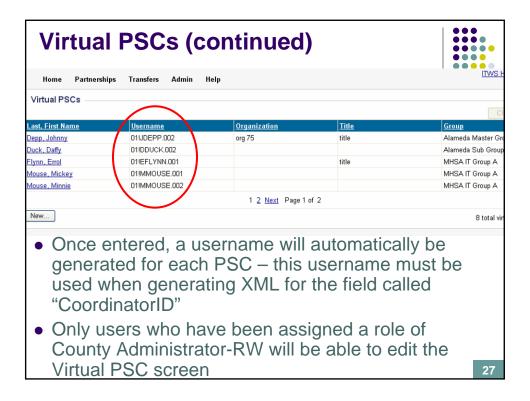

Important Information About Partnership Service Coordinators (PSCs)

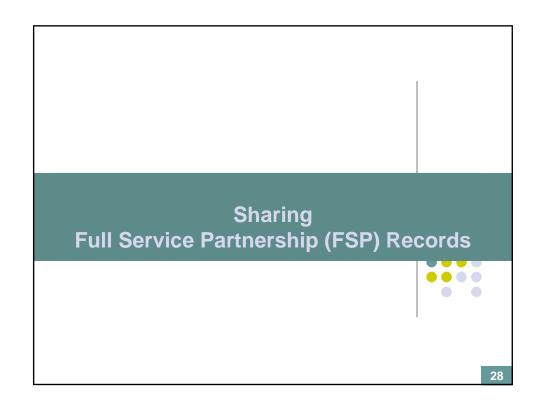

- PSC's must be identified as a PSC in the system so that their information is available for data validation (XML records are matched according to a PSC username) regardless of whether or not your county's business needs require them to access (i.e., view) the DCR
- If PSCs will access the DCR to view data, then they MUST enroll into the ITWS MHSA System, including the DCR Application, and be assigned a role of PSC-RO.
- When a PSC enrolls into the ITWS MHSA System, the PSC will create a username during enrollment. This username must be used when generating XML for the field called "CoordinatorID". (Approver Designees can access this information when they look at the "User Information" screen in the Approver Management interface.)

Virtual PSCs

- Although it is preferred that all PSCs directly enroll into the ITWS so that their role as a PSC can be formally established by the Approver Designee, DMH recognizes that this may not fit with a county's business needs
- If this is the case (i.e., PSC will not need to access their FSP data through the DCR), DMH has developed an alternative method called a "Virtual PSC table"
- Counties who choose to use this table to identify their PSCs (this table is used to validate records by checking if the PSC IDs match) will be required to key-enter the following information:
 - Unique first name / last name combination
 - The group to which the PSC belongs
- Optional data elements include: title, organization, street address, city, zip code, phone number, email address

Sharing Full Service Partners (FSPs)

- Authorized users of the DCR Application with "Share FSP Group (SFG)" functionality may 'share' their FSPs with other groups (e.g., if the user is going to be absent temporarily)
- The 'FSP Share' functionality is located in the DCR Application
- It is important to know that when an FSP is 'shared' with another group, all members in the shared group can see the FSP's information
- Sharing must be discontinued when it is no longer needed

29

REVIEW OF FULL SERVICE PARTNERSHIP (FSP) RECORD ACCESS

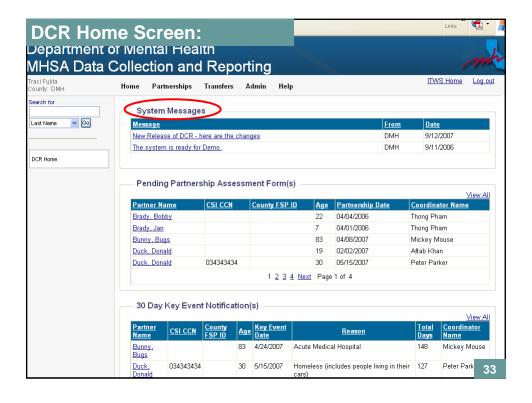

People who have Access to a FSP's Record in the DCR

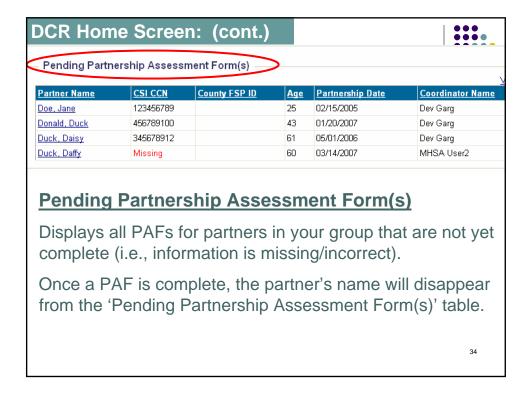

- 1. Users assigned to the "County> Master Group"
- 2. The <u>user who uploads</u> an FSP's Partnership Assessment Form (PAF) into the DCR Application
- The Partnership Service Coordinator (PSC) that is identified as the PSC for that FSP (if that PSC has access to the DCR Application)
- Users who are associated with a group to which the FSP record has been shared
- Users who are also assigned to the same group as one of the users mentioned above (Example: Anyone who is in the same group as the person who uploaded the FSP's record will also be able to access that record.)

31

BRIEF INTRODUCTION TO THE DCR

DCR Home Screen: (cont.)

30 Day Key Event Notification(s)

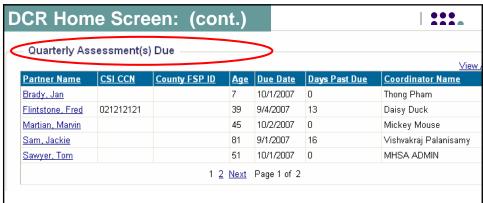

Vie							<u>View All</u>
<u>Partner</u> <u>Name</u>	CSI CCN	County FSP ID	<u>Age</u>	Key Event Date	<u>Reason</u>	<u>Total Days</u>	<u>CoordinatorName</u>
Doe, Jane	123456789		25	2/28/2007	Juvenile Hall / Camp / Ranch	44	Dev Garg
Donald, Duck	456789100		43	1/20/2007	Jail	83	Dev Garg
Duck, Daisy	345678912		61	5/1/2006	State Psychiatric Hospital	347	Dev Garg

30-Day Key Event Notification(s)

Displays all KETs for partners in your group that have been in one of the following residential settings for 30 days or longer:

- Emergency Shelter / Temporary Housing
- Homeless
- Acute Medical Hospital
- Acute Psychiatric Hospital / Psychiatric Health Facility
- State Psychiatric Hospital
- Juvenile Hall / Camp / Ranch
- Division of Juvenile Justice
- Jail

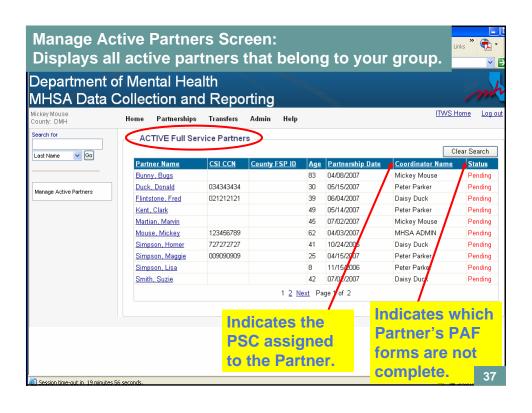

Users may click on the partner's name to view the original KET that generated the notification.

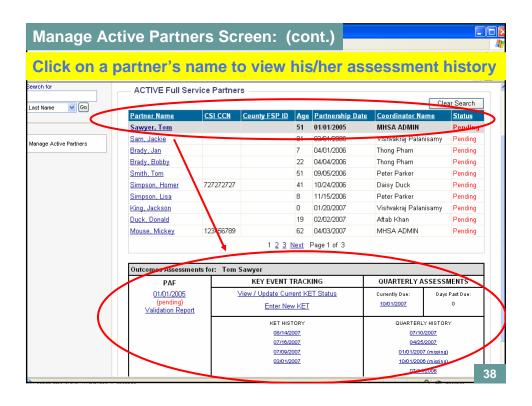

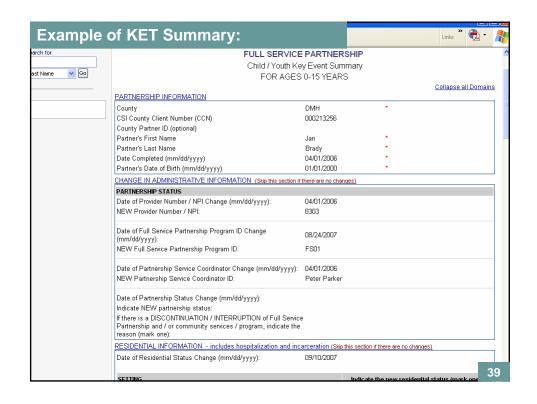

Quarterly Assessment(s) Due

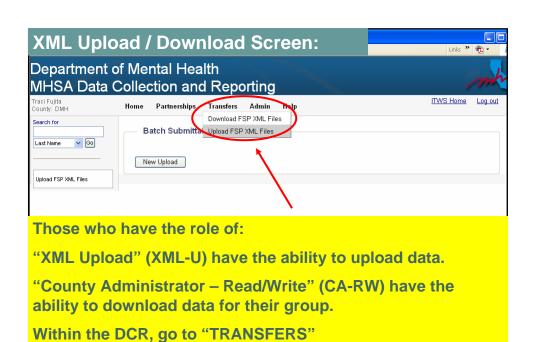

Displays Quarterly Assessments that are due for partners in your group.

Notifications will appear 15 days prior and 30 days after the FSP's Quarterly Assessment due date.

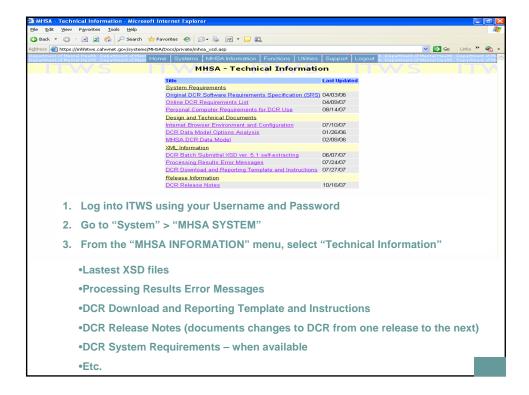

Downloaded data is provided in XML (extensible markup

language) format.

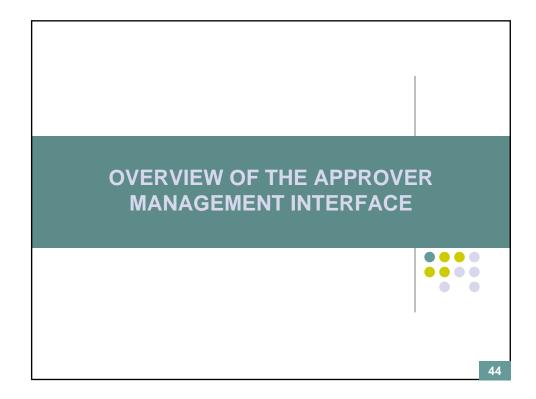

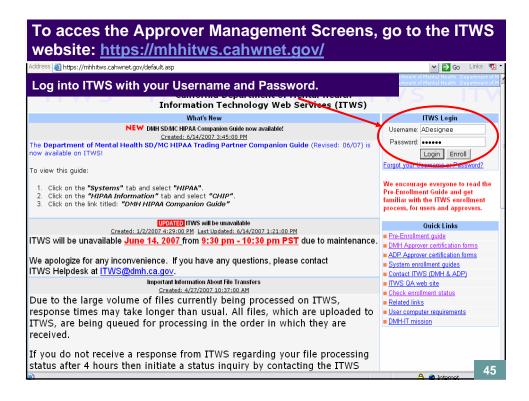

DCR System Requirements

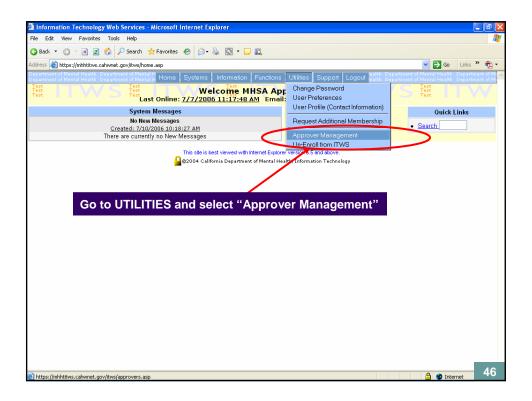

The DCR development team has identified the following requirements and settings to insure a positive experience when using the DCR system:

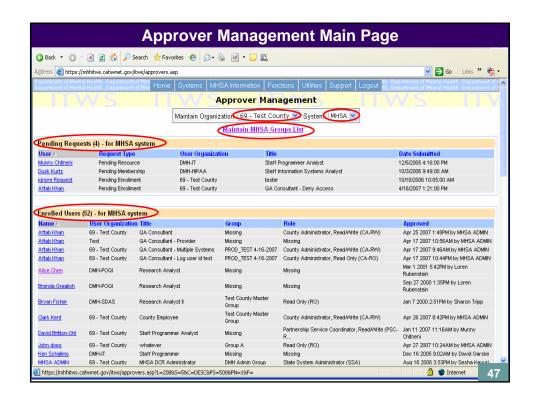

- Use Windows XP
- Use Internet Explorer 6.0 or above (other browsers are not supported)
- Set https://mhhitws.cahwnet.gov/ as a trusted site with settings set to medium
- Allow cookies from https://mhhitws.cahwnet.gov/
- Allow pop-ups from https://mhhitws.cahwnet.gov/ (many messages in the DCR are presented in pop-ups)

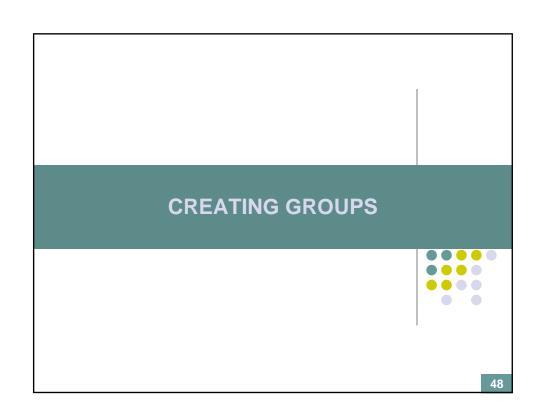

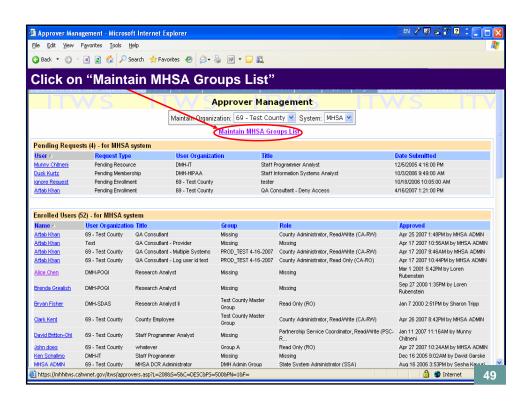

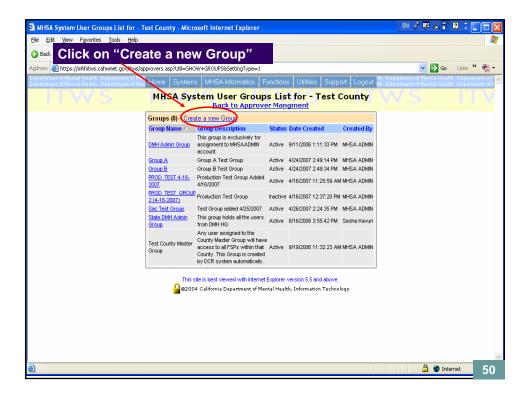

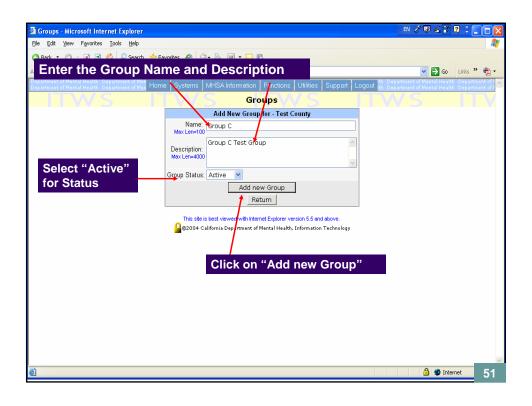

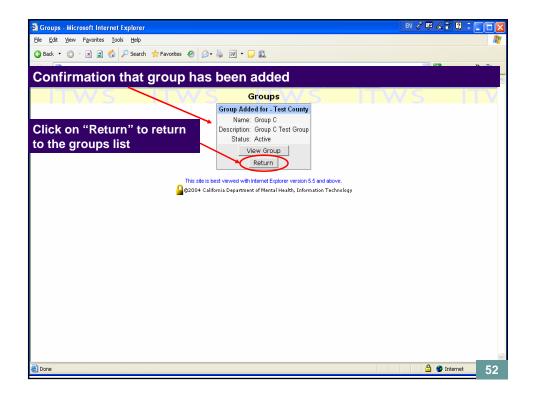

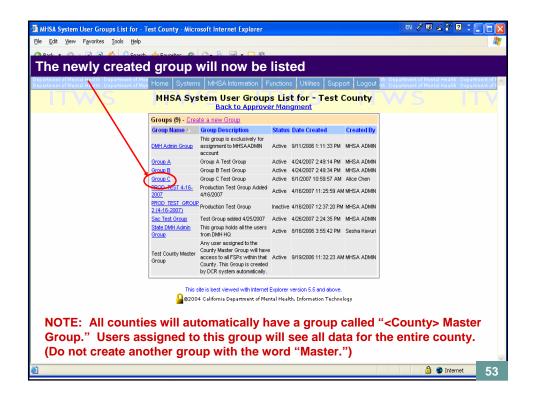

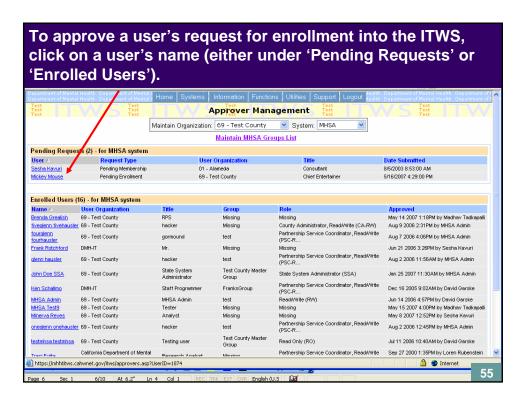

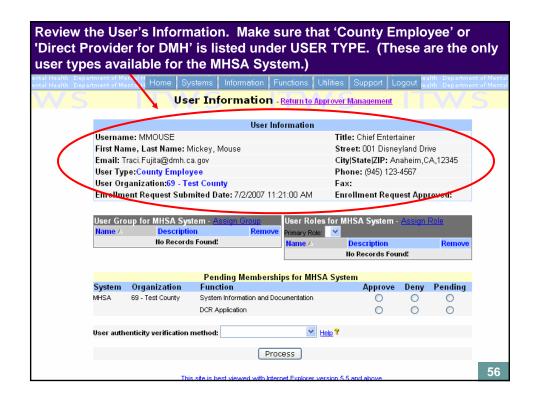

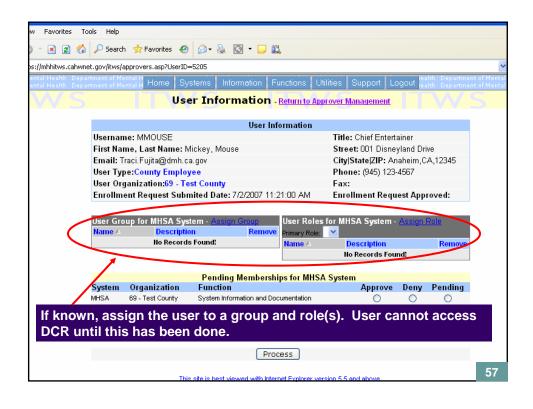

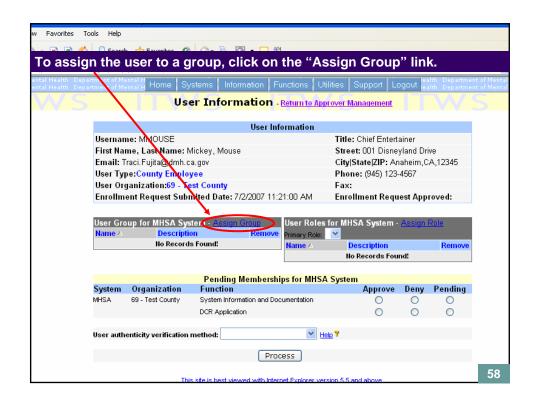

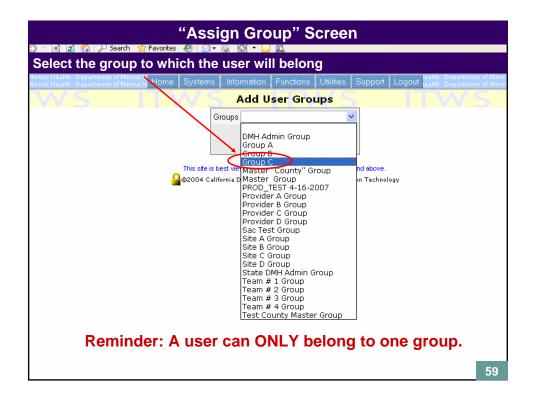

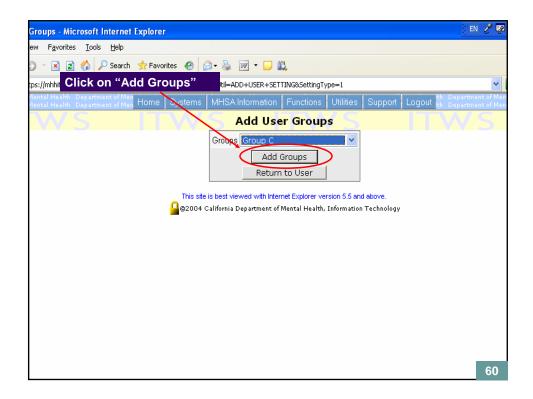

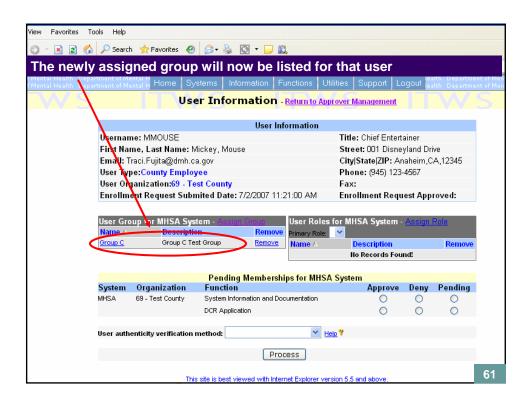

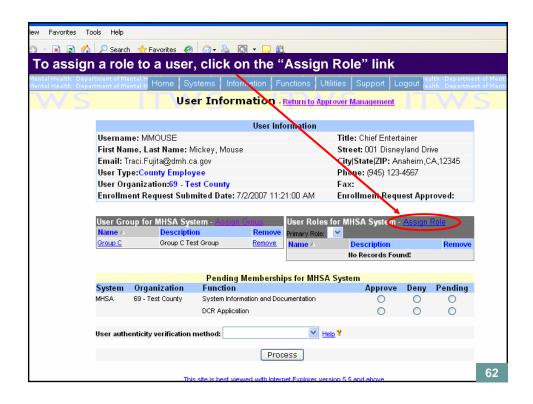

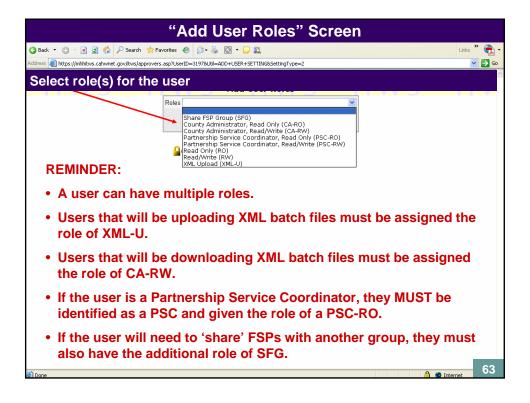

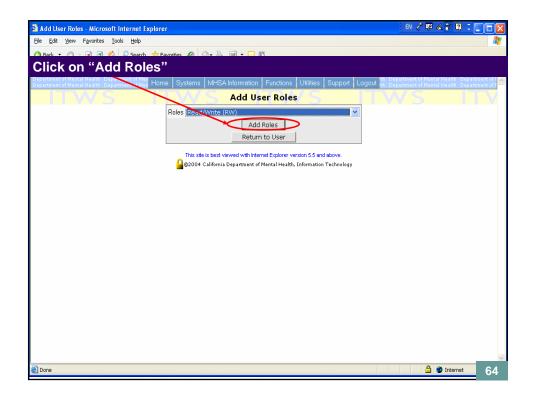

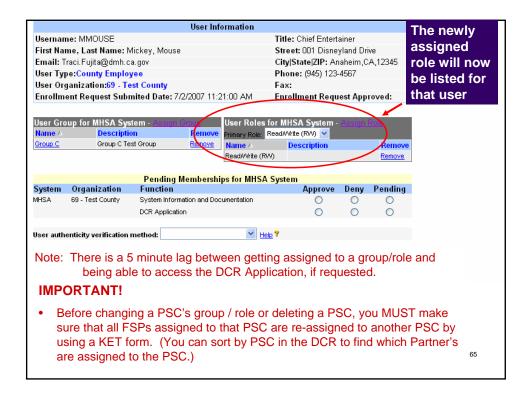

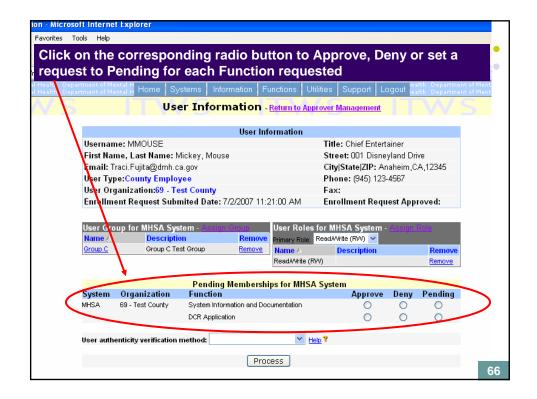

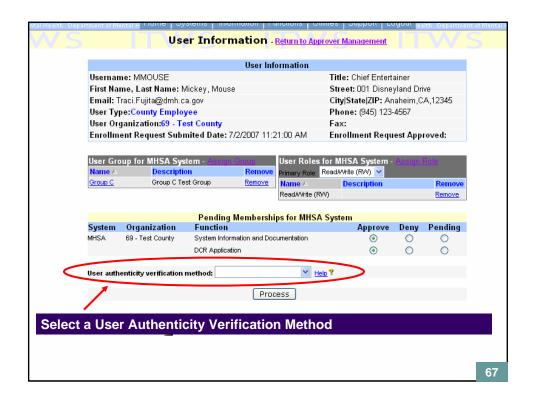

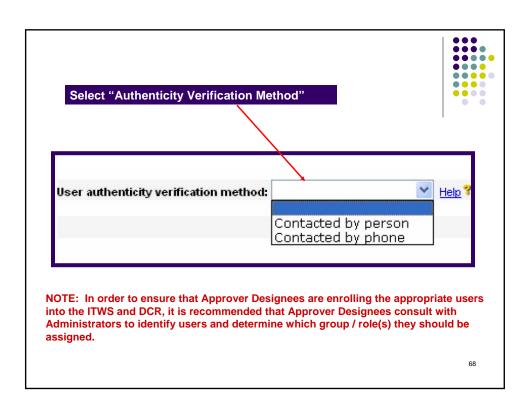

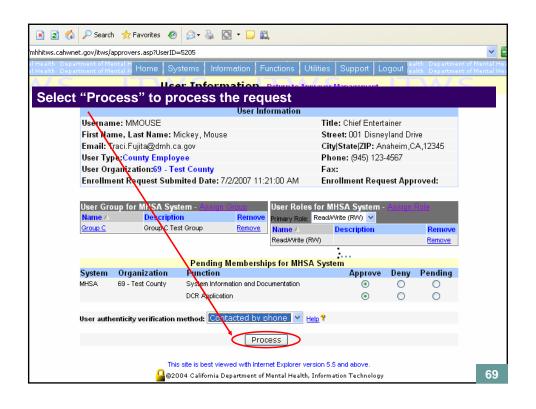

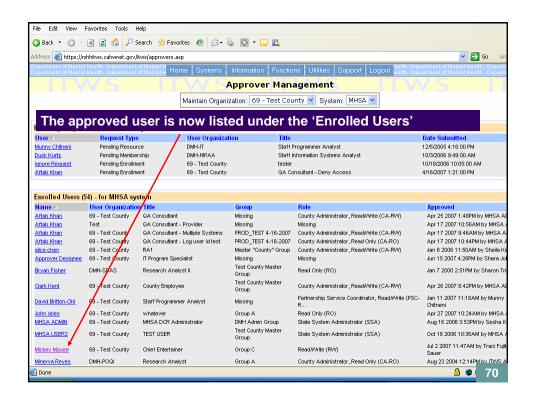

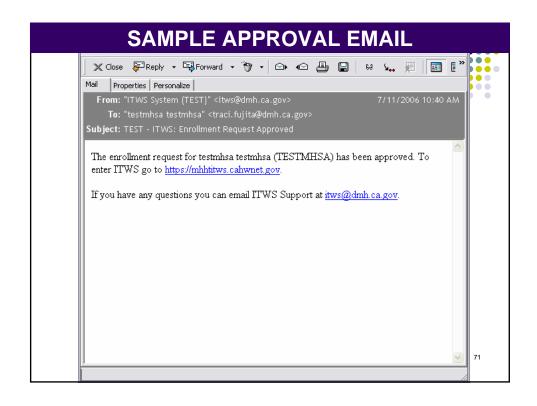

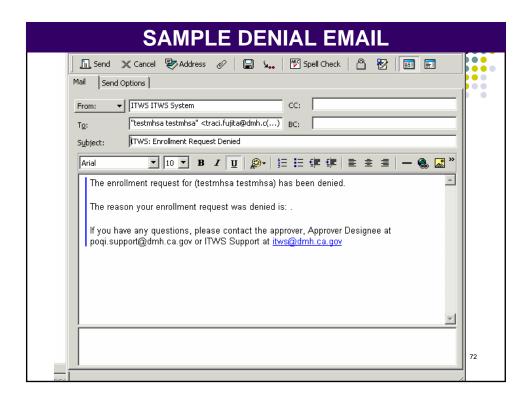

Additional ITWS Information

- After 6 months of inactivity, the ITWS
 System will automatically disable a
 user's account and send an email
 communicating the deactivation
- To reactivate a disabled account, the user should send an email to the ITWS Help Desk (<u>itws@dmh.ca.gov</u>) that includes the username that should be enabled

73

SECTION III: INFORMATION TECHNOLOGY WEB SERVICES (ITWS) ENROLLMENT PROCESS

APPROVER DESIGNEE Designation & ITWS Enrollment Process

75

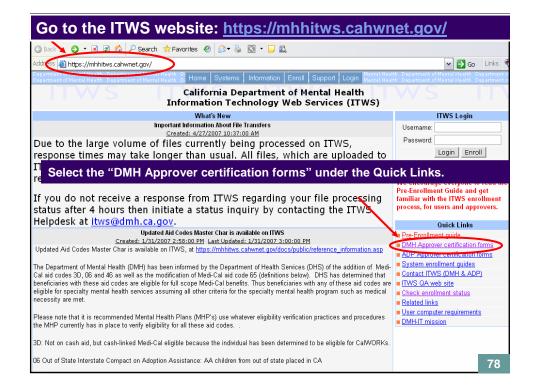

How to Become an Approver Designee

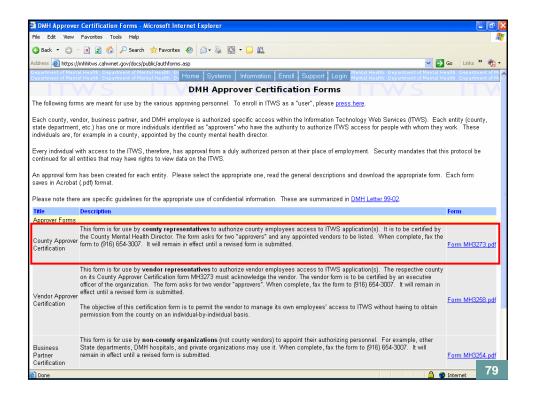

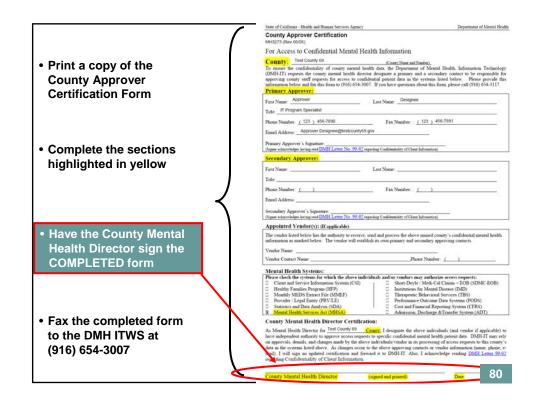

Follow these steps:

- Step 1: County Director designates the Approver
 Designee(s) by completing and faxing the County
 Approver Certification form (MH 3273) to the DMH
 ITWS Help Desk
- Step 2:DMH ITWS Help Desk staff enters the Approver Designee(s) information into the ITWS System and notifies Approver Designee(s) via email when approval process is complete
- Step 3: Approver Designee(s) enrolls / expands existing membership to the DMH ITWS MHSA Data System

STEP 2

DMH ITWS Help Desk staff enters the Approver Designee(s) information into the ITWS System and notifies Approver Designee(s) via email when approval process is complete

81

Once DMH Receives the Form:

DMH enters the Approver Designee's information into the ITWS System.

DMH contacts the Approver Designee via email to let the Approver(s) know that they are approved.

Sample Approval Email for Approver Designees

You are receiving this message for one of three reasons:

- You have been added as an approver with authority to approve certain users for access to the ITWS system, or
- 2) Your status as an approver on the ITWS system has changed through the addition or deletion of systems you are authorized for, or
- 3) You approver status has been audited for accuracy.

If you have not already done so, please review the appropriate confidentiality statements and ensure you fully understand your responsibilities before exercising this authority.

You have approver authority for the following organizations and data systems:

69 - Test County - MHSA

If you leave this position or no longer need this authority, if any of the enrolled users you have approved leaves or no longer needs access to this data system or ITWS, please notify us at itws@dmh.ca.gov.

Note: After you receive this email, you need to enroll into ITWS.

83

STEP 3

Approver Designee(s) enrolls / expands existing membership to the DMH ITWS MHSA Data System

Two ways to enroll into ITWS:

Enroll as a NEW user

Or

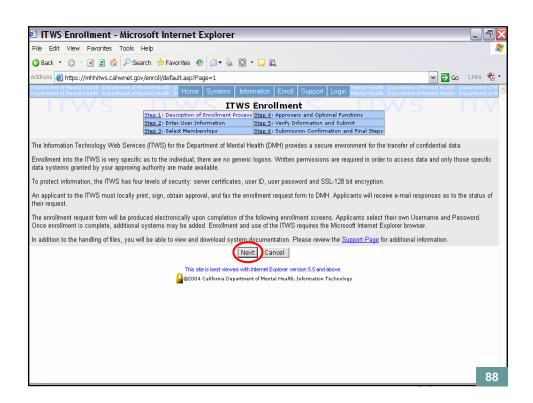

Enroll as an **EXISTING** user

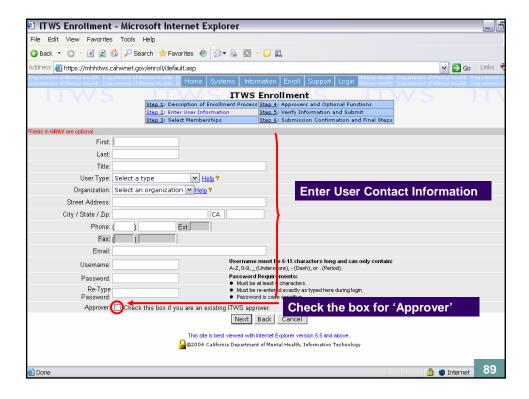

85

To Enroll as a **NEW** ITWS User

Things to keep in mind when enrolling

FIRST NAME / LAST NAME

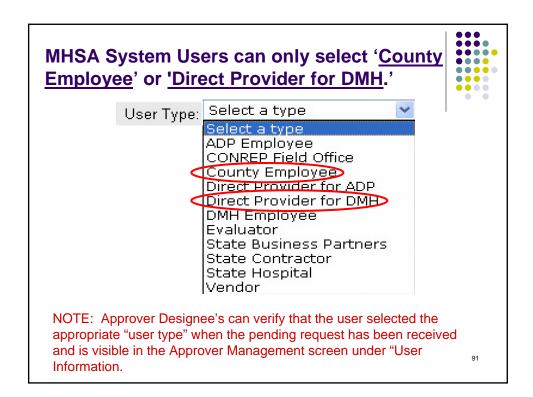

- Users need a unique first name / last name combination when enrolling into the ITWS
- This helps to uniquely identify users

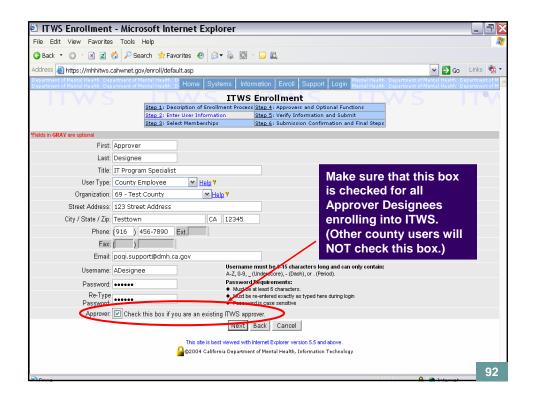

USERNAME

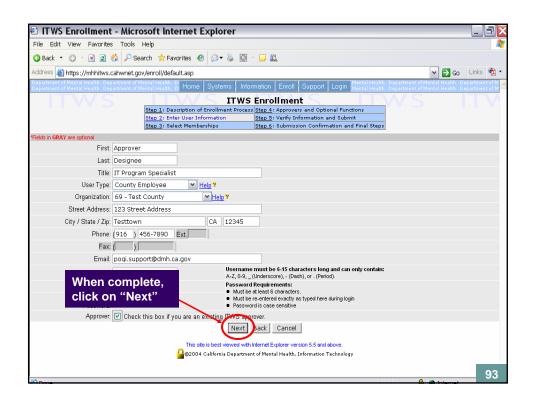

- Users need a unique username when enrolling into the ITWS
- Select a username that is easy for you to remember
- Username must be 6-15 characters long and can only contain A-Z, 0-9, _ (underscore), - (dash), or . (period)

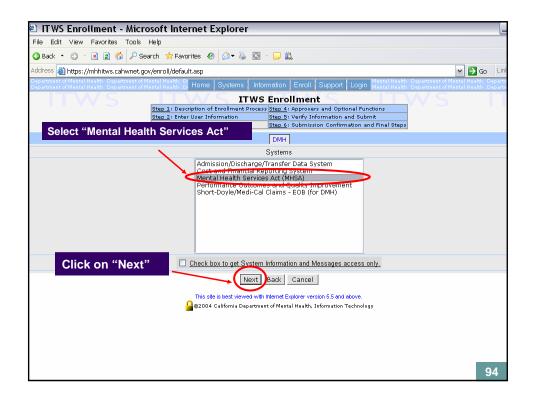

PASSWORD

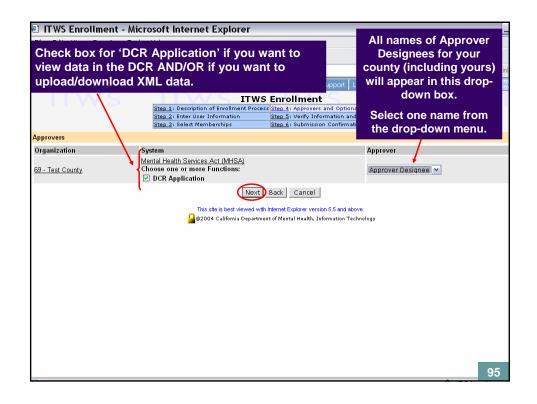

- Must be at least 6 characters in length
- Password is case sensitive
- Select a password that is easy to remember

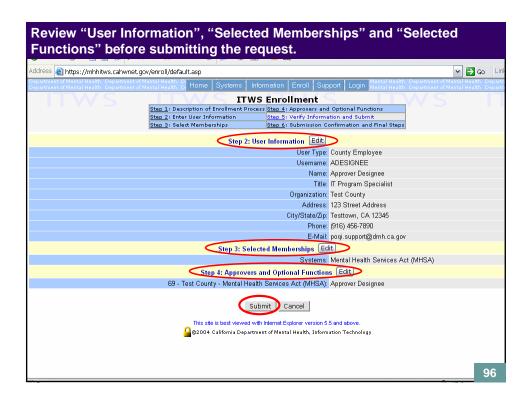

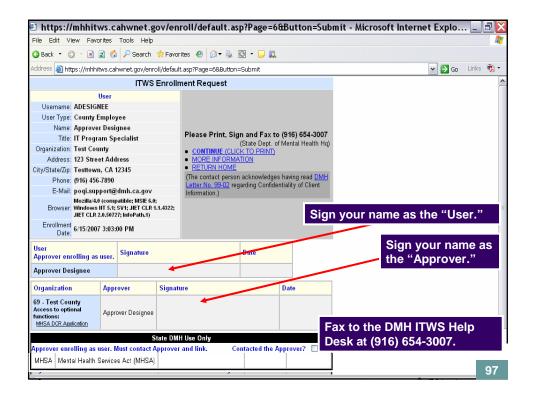

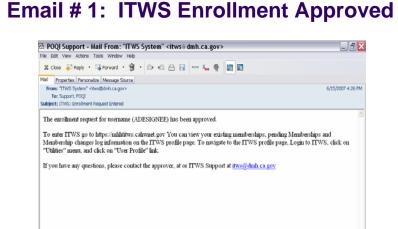

Approver Designee Account Activation

Once the signed ITWS Enrollment form has been received, DMH staff will approve enrollment into the ITWS. Approver Designees will receive the following TWO emails:

- Email # 1: ITWS Enrollment Approved
- Email # 2: MHSA System Enrollment Request is Queued for Your Review

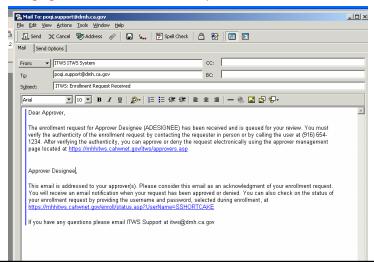

99

start | (원 의 용 원 제 제 2 등 제 3) [의 c... | 원 c... | 원 c... | 원 c...

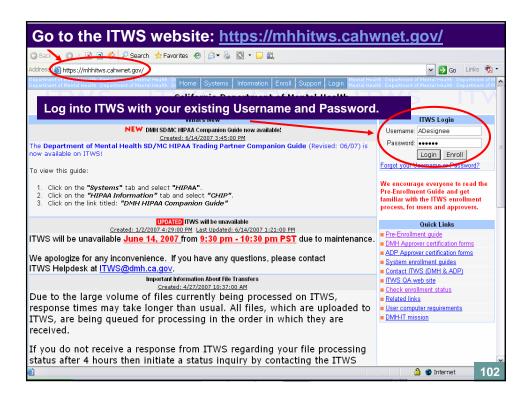

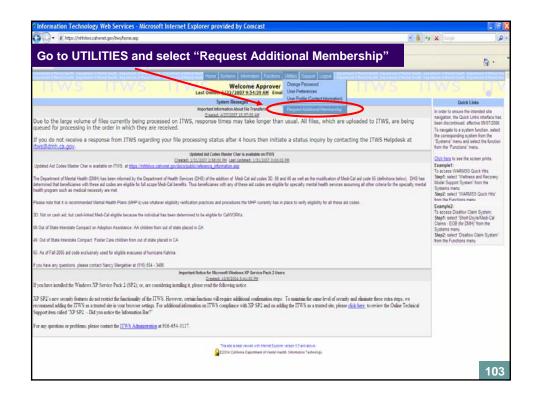

At this point, you will need to go into the Approver Management screen and approve your own request for access to the ITWS MHSA System. (Approving requests was covered in the section called "Managing Access to the ITWS / DCR.")

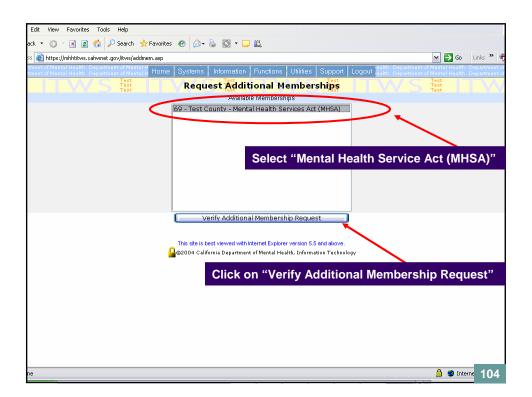

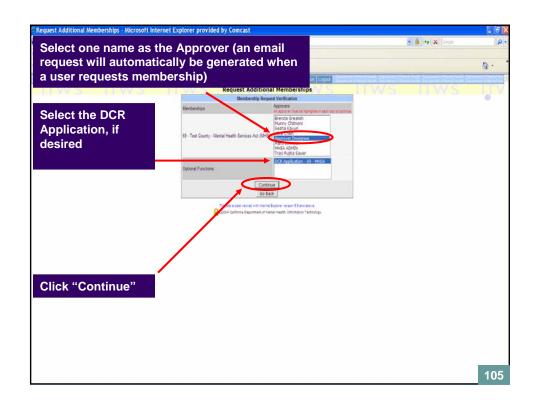

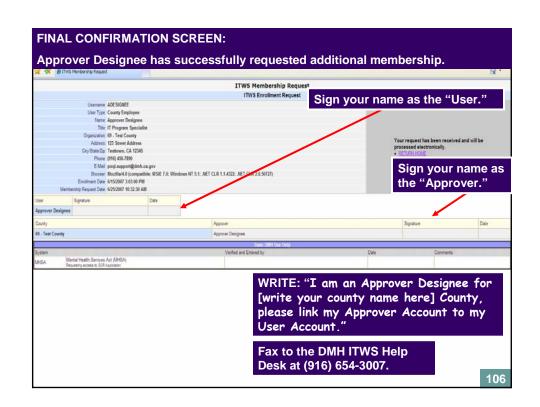

To Enroll as an **EXISTING** ITWS User

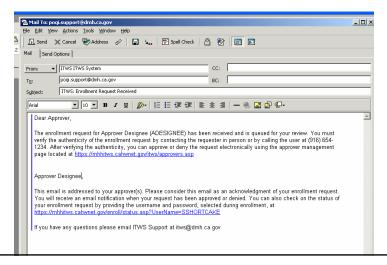

Approver Designees will then receive the following email:

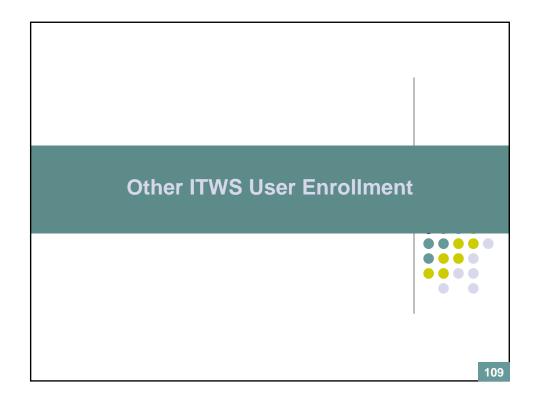

At this point, you will need to go into the Approver Management screen and approve your own request for access to the ITWS MHSA System. (Approving requests was covered in the section called "Managing Access to the ITWS / DCR.")

Additional Information Regarding Approver Designee Enrollment

- Approver Designees may only approve other county users to access the ITWS MHSA System once they, themselves, have been enrolled/approved
- Each Approver Designee will most likely be assigned to the "<County> Master Group" (described in Section I) and given the role of County Administrator Read/Write

ITWS User Enrollment

Again, there are two ways to enroll into ITWS:

1. Enroll as a NEW user

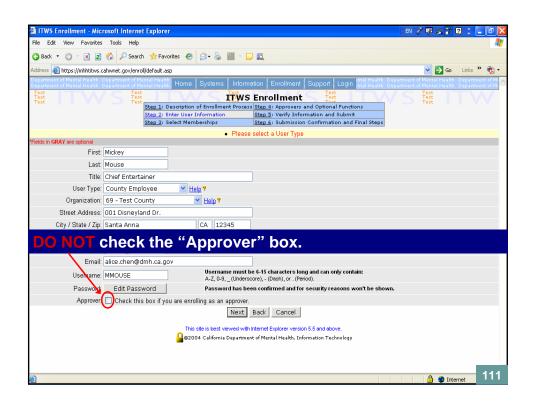

Follow the instructions outlined in Step 3 for NEW users

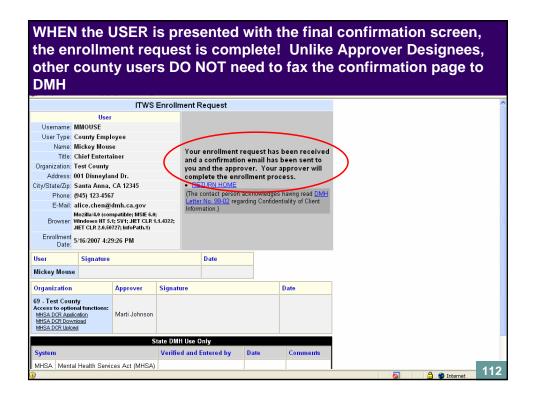

- OR -

2. Enroll as an **EXISTING** user

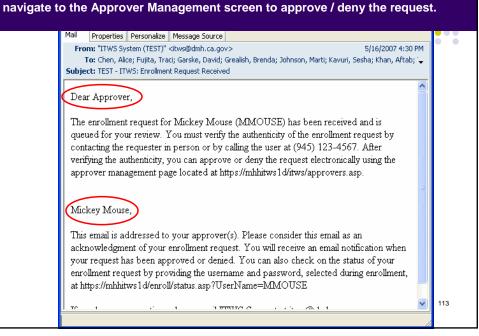

Follow the instructions outlined in Step 3 for EXISTING users

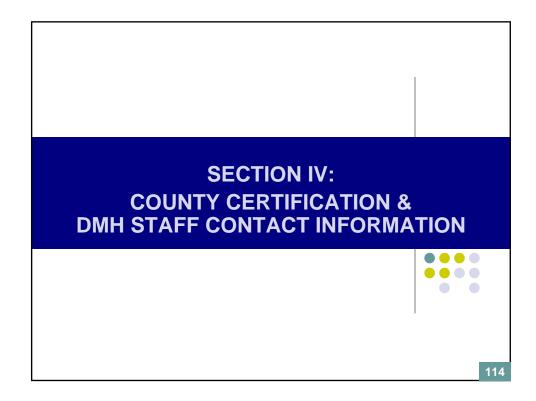

EXCEPT users do NOT do the following:

An email will be generated for the user and all Approver Designees of the county. This email serves as a prompt for Approver Designees to log onto the ITWS and navigate to the Approver Management screen to approve / deny the request.

County Certification Requirements

The following conference call trainings must be completed by county staff before submitting FSP **Outcomes Assessment Data to DMH:**

- County Director identifies Approver Designee(s), who receive Approver Designee training (up to 2 hours)
- Approver Designee Group Structure Development conference call (up to 1/2 hour)
- Full Service Partnership (FSP) Outcomes Assessment Training (up to 2 hours)
- FSP Program ID Code Assignment (up to 1/2 hour) 4
- 5. Submit sample XML batch file, tested and approved by DMH

Approver Designee's and trainers from XML counties are invited to attend the "DCR Direct On-Line Key-Entry Training." This training is geared toward those counties who will key-enter data into the DCR but it will also give XML counties an idea of the functionality within the DCR.

More training information, including scheduling, is located at: http://www.dmh.ca.gov/POQI/trainingMHSA.asp

115

Next Steps

- 1. Approver Designees (and other relevant staff) will need to determine which group structure(s), presented in this training, most closely match their business needs.
- 2. Contact POQI staff to schedule the "Approver Designee Group Structure" Development" conference call once Approver Designees have consulted with county staff on group structure. (For more information, visit http://www.dmh.ca.gov/POQI/trainingMHSA.asp)
- 3. Following the "Approver Designee Group Structure Development" conference call, get users enrolled into the ITWS and request DCR Application, if appropriate. (Authentication processes may need to be developed internally in your county to determine who these users are and how to inform Approver Designees when access needs to be removed.)
- 4. To assist counties with training local users on enrollment into the ITWS, an "ITWS User Enrollment Guide" has been posted on the POQI Training Website at: http://www.dmh.ca.gov/POQI/docs/ ApproverDesigneesTrainingLink.asp (You may need to modify this document based on what "user type" users should select, along with your contact information, and any other information specific to your county.)

DMH is ready for XML file testing! We want your preliminary test XML files.

Please contact Greg O'Brien at (916) 654-0066 or Greg.O'Brien@dmh.ca.gov for more information.

117

Support Process

- Questions related to conceptualizing/configuring/managing groups and roles should be directed to POQI Staff
- Question related to ITWS enrollment should be directed to the ITWS Help Desk

NOTE: When communicating with the POQI Unit regarding specific MHSA Full Service Partners, please contact a POQI staff member directly. DO NOT email personal information such as client ID numbers, names, initials, etc. because this is considered Personal Health Information that cannot be communicated electronically. Sending clients' personal health information electronically is in violation of HIPAA.

Although we have asked other county users to contact County Approver Designees whenever possible for help, if other staff do need to contact the POQI Unit, please ensure that they also follow the instructions provided above.
